

## Initial Concept

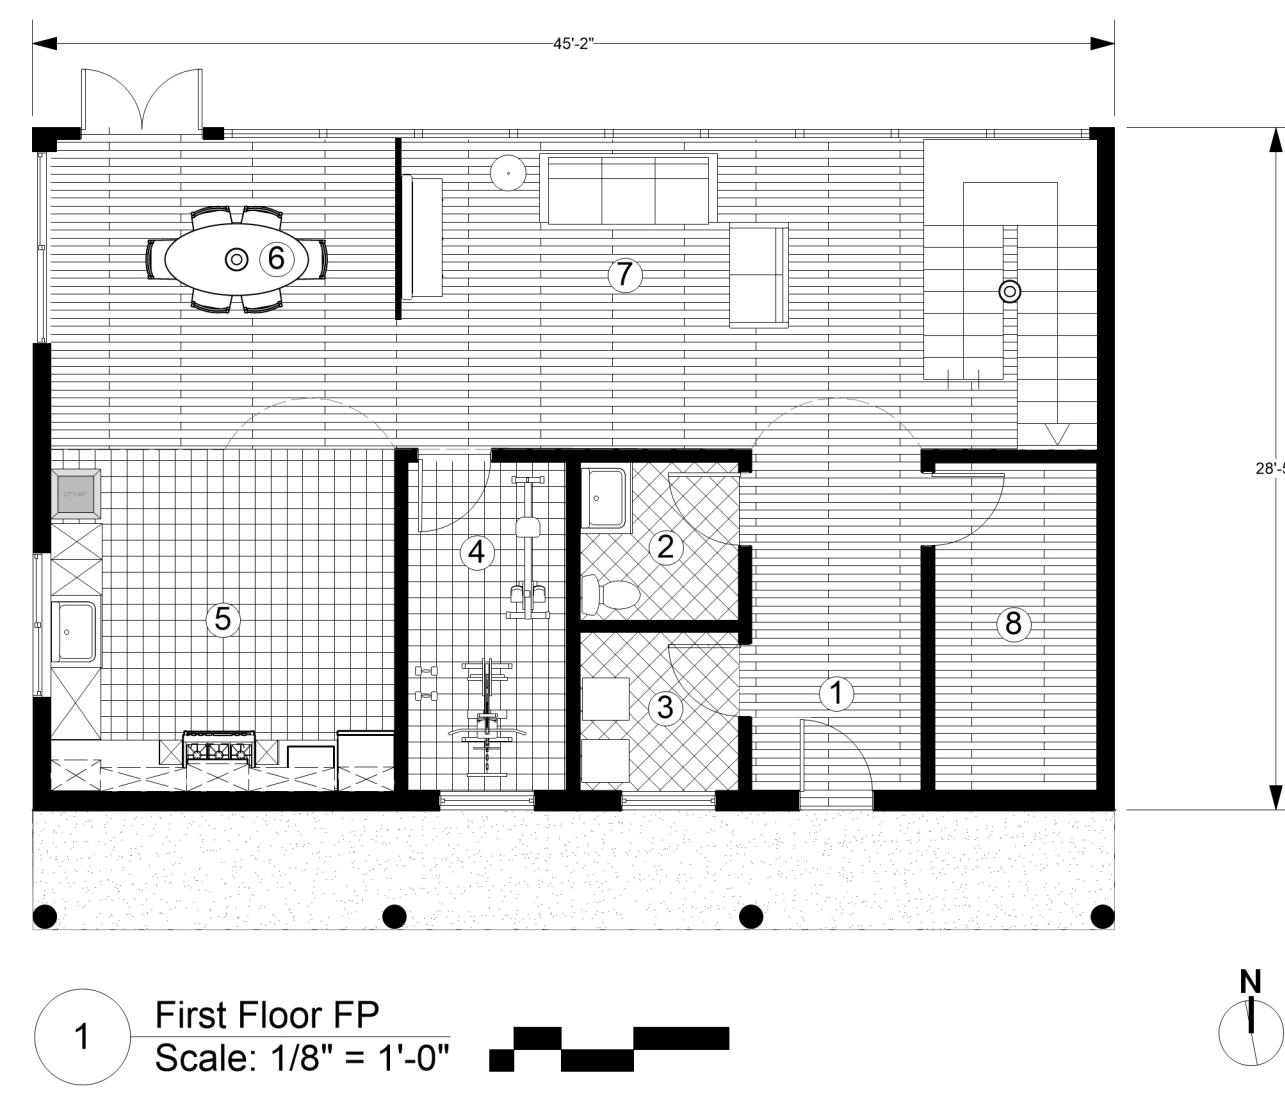

I choose Elk Grove, California, a quiet and diverse city, as the location of this project. And I would like to design an Airbnb nearby Elk Grove Park which consists of a beautiful lake and natural environment. Therefore, the natural environment in Elk Grove is one of the features that attract people to visit.

I decided to convey the theme of nature in my project, and I utilize a curved shape as the house's roof and decorations to create little wave shapes. However, there is no huge up and down on the wave shape because I would like to express a feeling of calm.

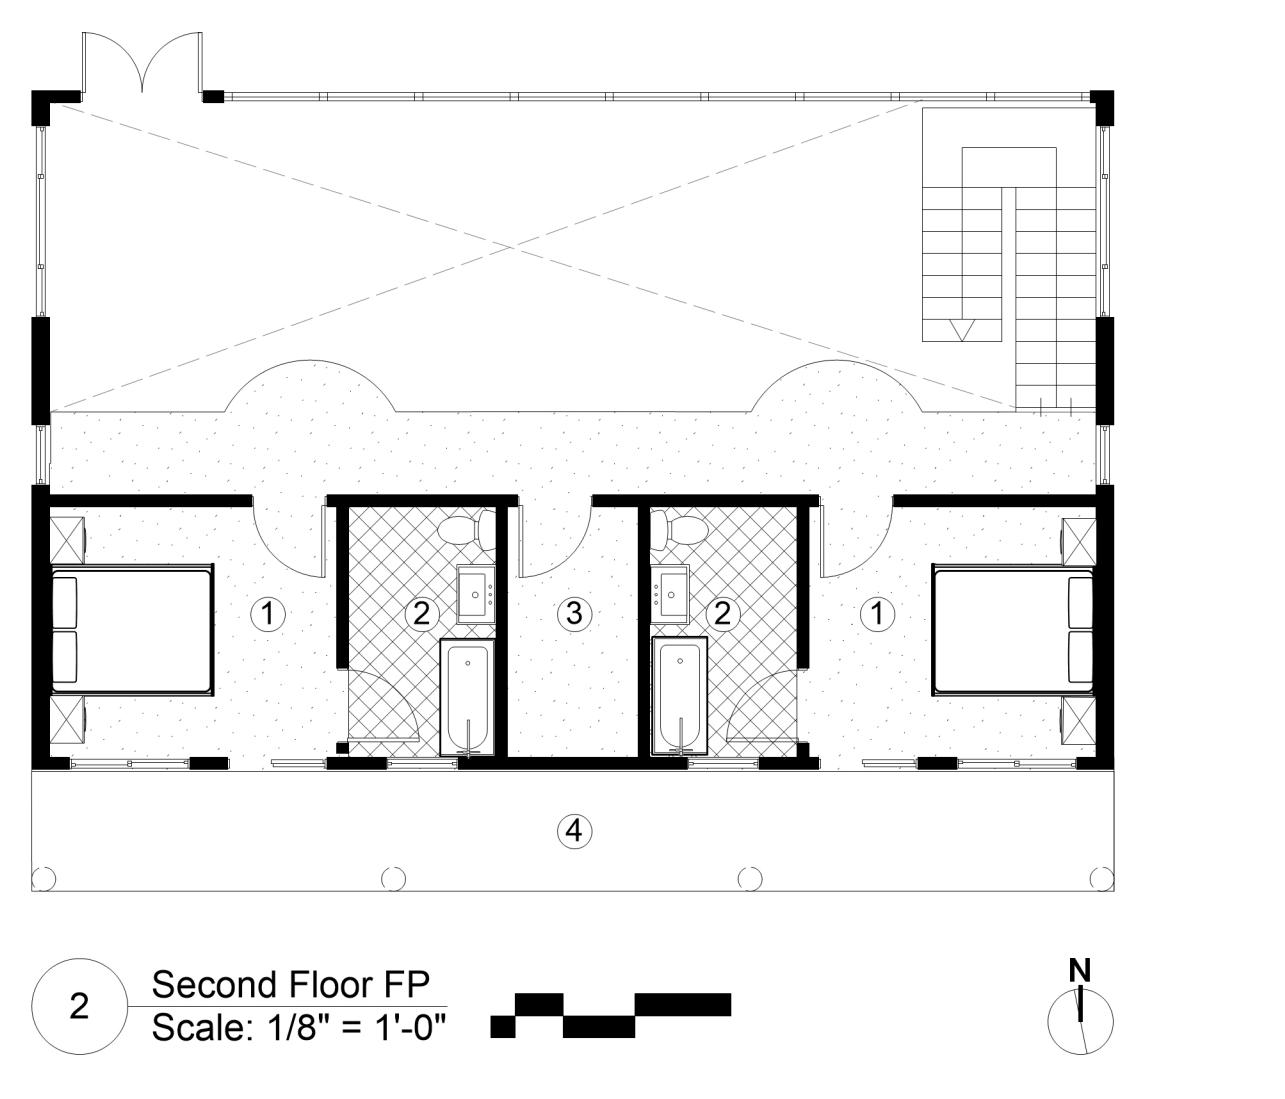

## Floor Plan

### First Floor

1. Entrance
2. 1/2 Bathroom
3. Laundry
4. Exercise Room
5. Kitchenette
6. Dining Room
7. Living Room
8. Host Storage

### Second Floor

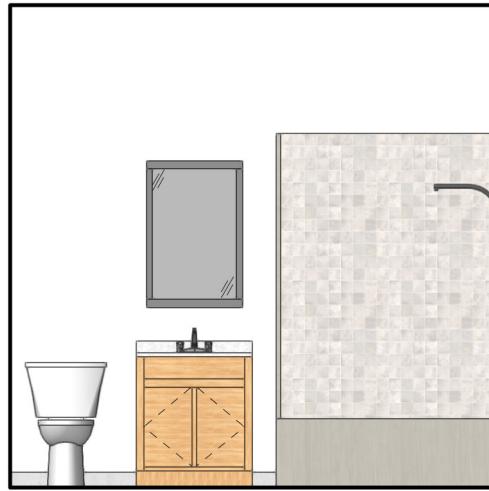

1. Bedroom
2. Bath
3. Guest Storage
4. Balcony

## Interior Elevations

Scale: 1/4" = 1'-0"

1 KITCHEN - SOUTH

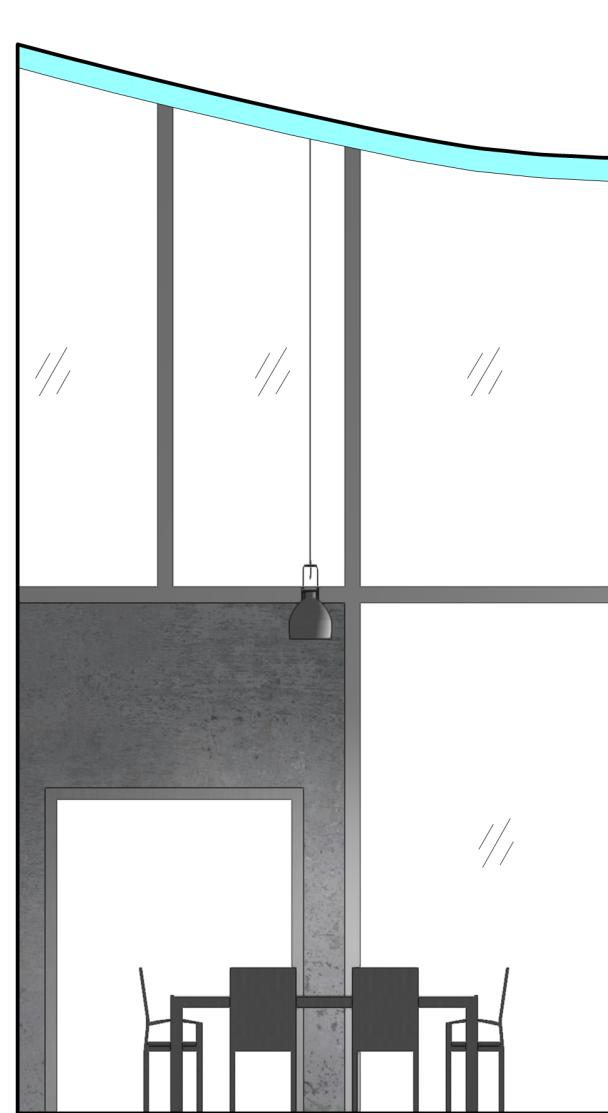

2 BATH ROOM - SOUTH

3 BEDROOM - SOUTH

4 LIVING ROOM - SOUTH

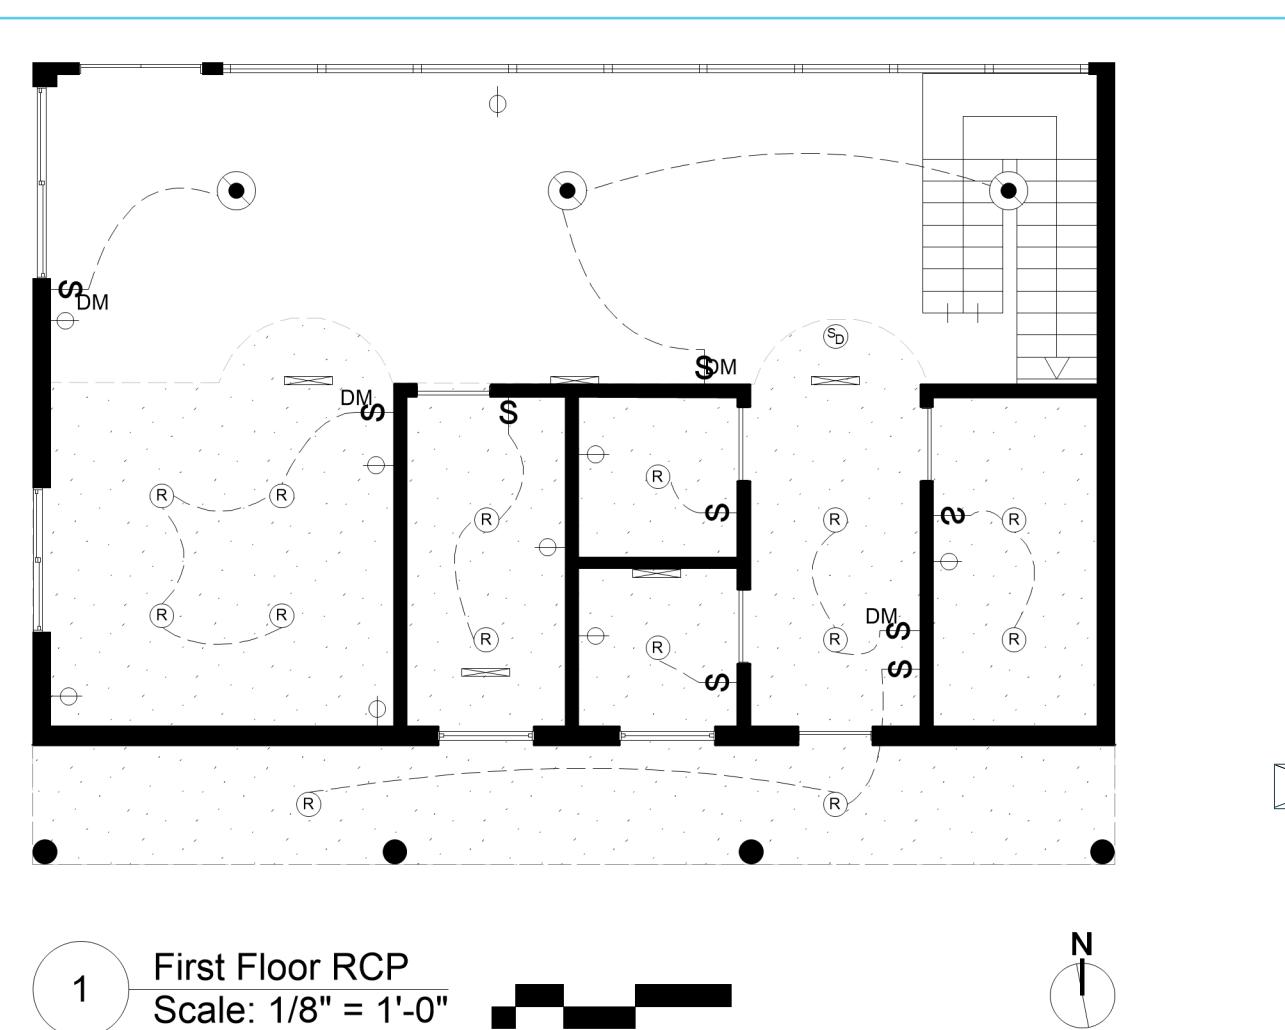

5 Dining Room - North

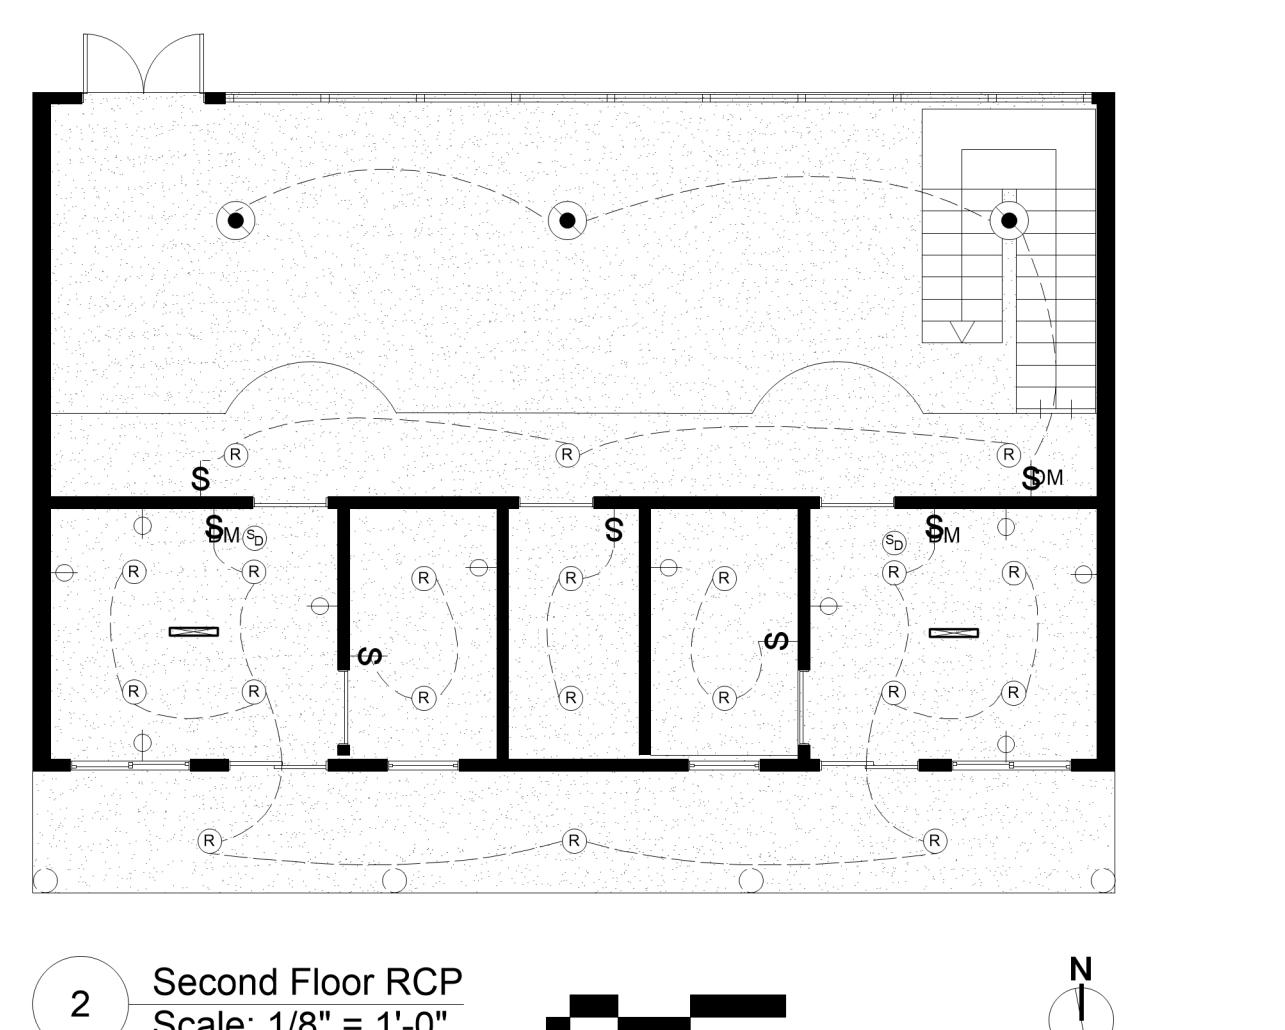

6 Dining Area and Living Room - North

## Ceiling Plans

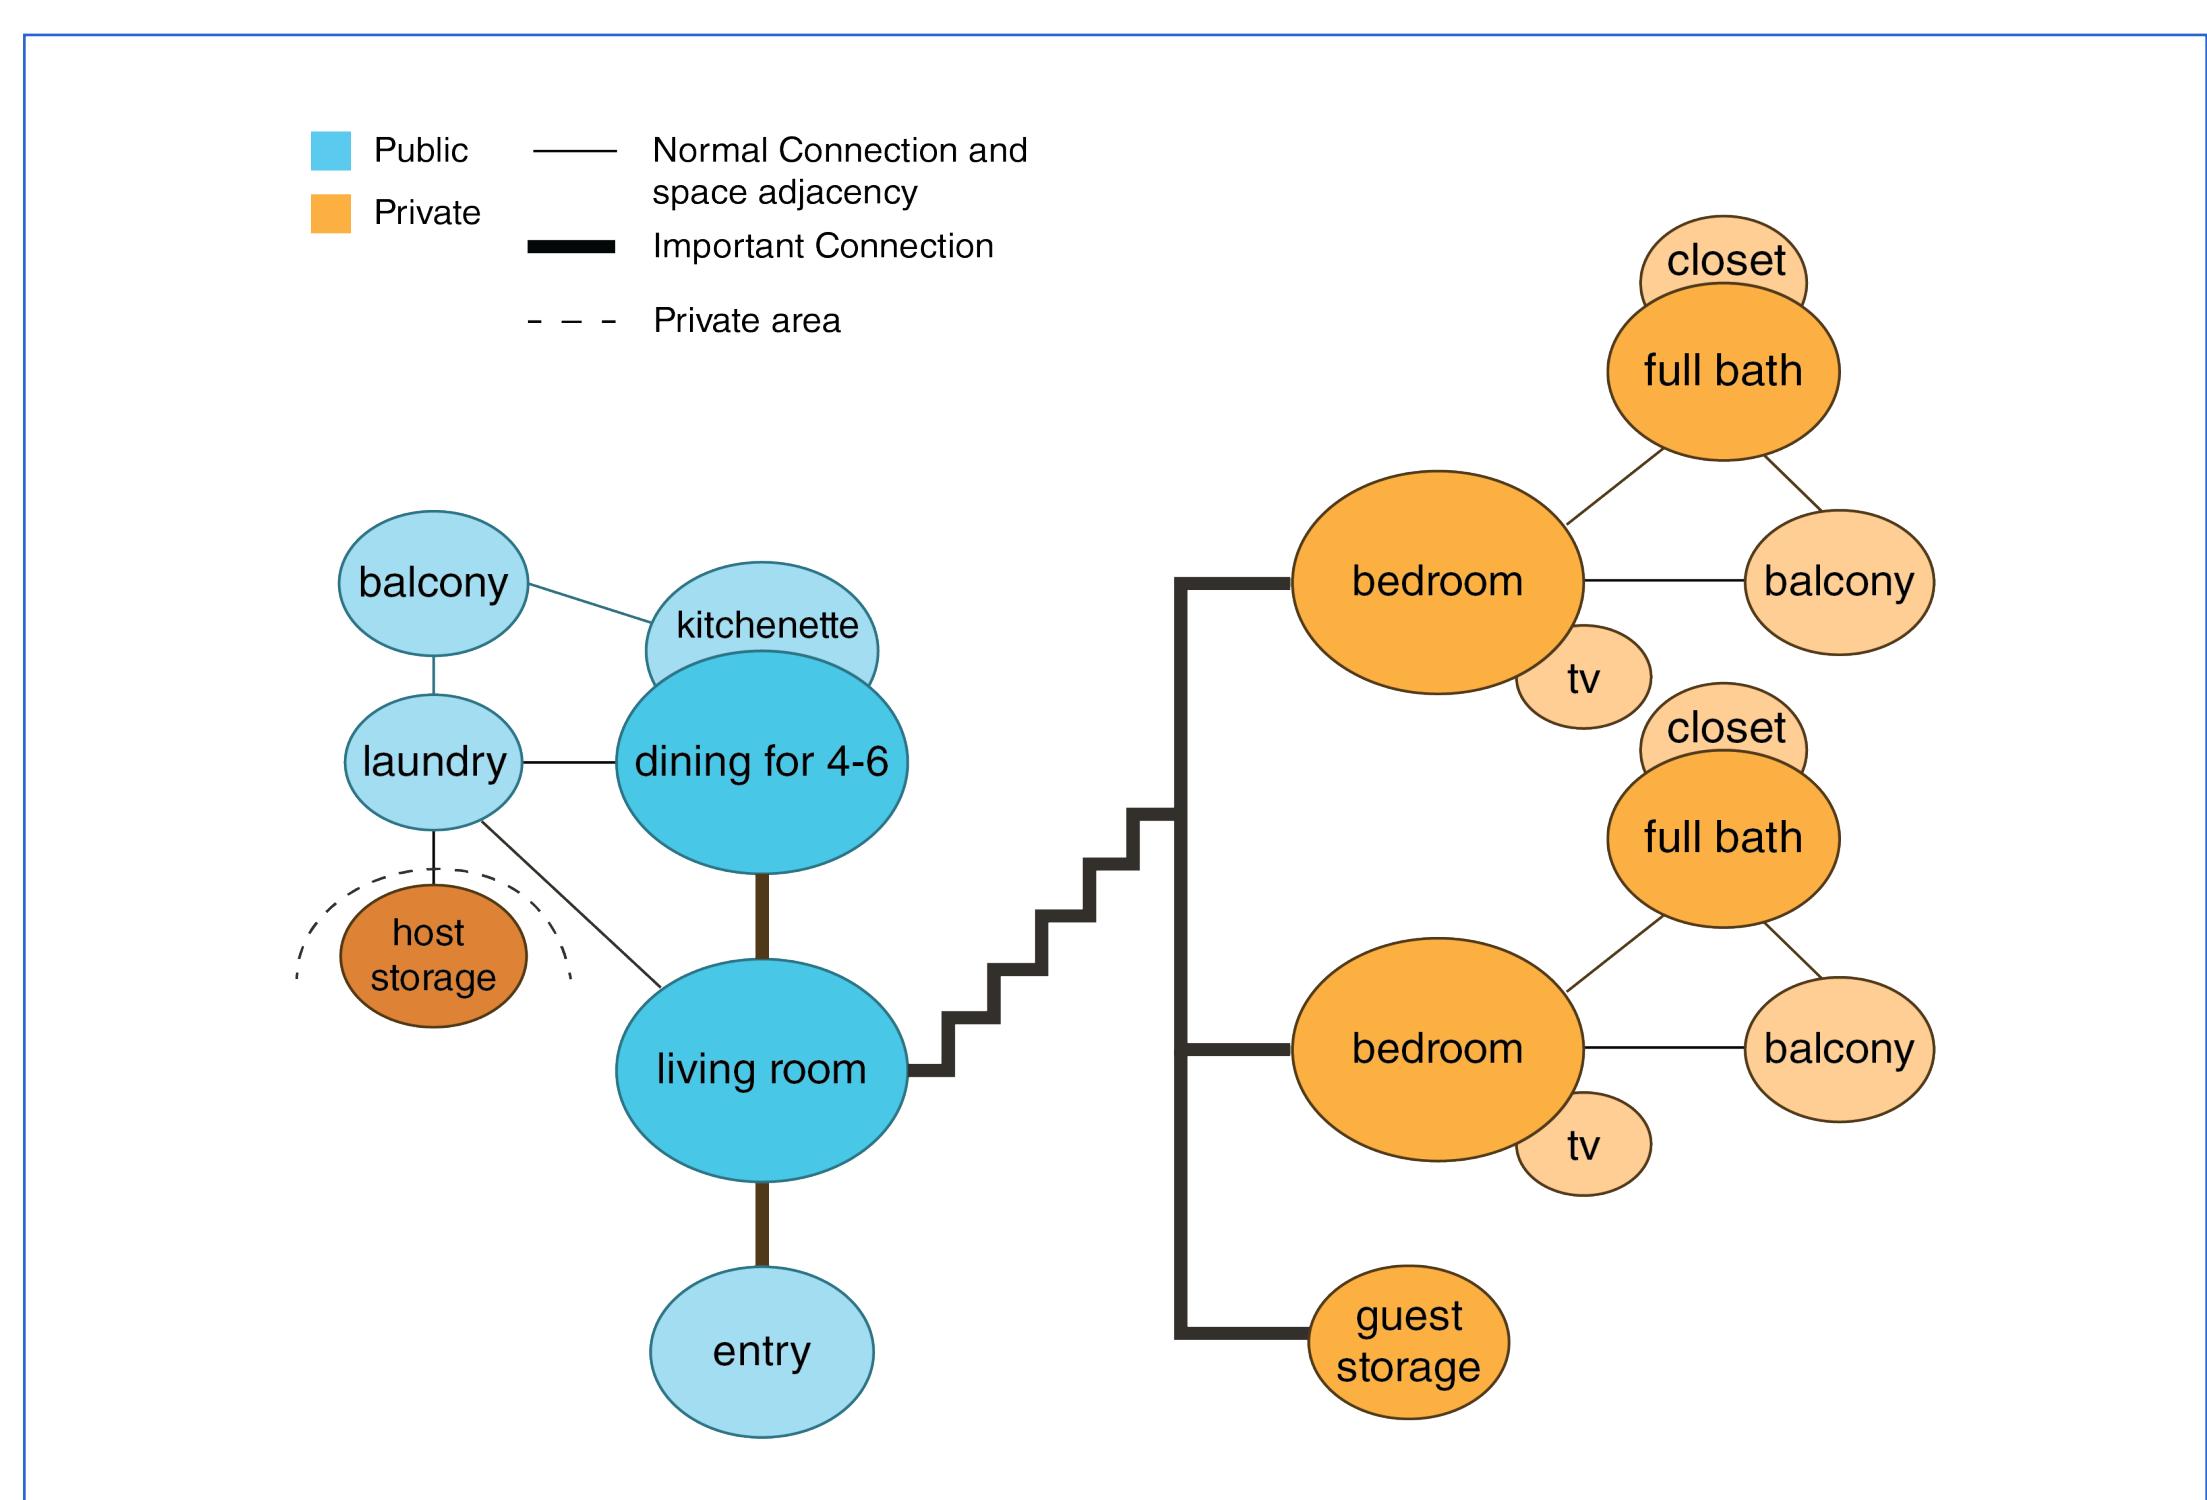

- HVAC Supply
- Electrical Outlet
- Light Switch
- Recessed Light
- Light Switch Dimmer
- Hanging Lamp
- Smoke Detector

2 Second Floor RCP Scale: 1/8" = 1'-0"
